ABOUT ARIBUKA

There has been always a demand for quality investment services.

In an attempt to satisfy this demand, the idea of creating an **Aribuka** company came up. **Robert Baker** has set a goal to bring together the best specialists in their field under the wing of one company. So a few months later, in **September 2019**, a team of 5 managers was assembled, each of whom had extensive experience in their area of investment.

Collaborative work for two years has shown results that have exceeded all expectations. By diversifying our capital into 5 areas, we have been able to reach the average monthly rate over 20%.

At the moment we invest in such instruments as:

- **IPO** - the first public sale of shares of a joint stock company.
- **ICO** is the initial placement of new cryptocurrency units.
- **Startup** - young and promising companies that have recently started their activities.
- **Offline business** - buying a pool or share in a large business.
- **PoS Mining** is an online mining option without the need to purchase expensive equipment.
- **Pre-ICO** - sale of company tokens before the official ICO is held.

CERTIFICATE OF INCORPORATION OF A PRIVATE LIMITED COMPANY

Company Number 13155819

The Registrar of Companies for England and Wales, hereby certifies that

ARIBUKA LIMITED

is this day incorporated under the Companies Act 2006 as a private company, that the company is limited by shares, and the situation of its registered office is in England and Wales

Given at Companies House, Cardiff, on 25th January 2021

* N13155819K *

Companies House

DISTRIBUTION OF FUNDS

Competent distribution of assets allows to minimize the risks of losing funds and increase the average profit. Each manager, before making a decision to enter or exit an investment instrument, conducts a thorough analysis of stocks, cryptocurrencies or business systems, weighs potential risks, profits, and only then makes a decision.

10%

Offline business

buying a pool or share in a large business.

8%

POS Mining

is an online mining option without the need to purchase expensive equipment.

20%

IPO

the first public sale of shares of a joint stock company.

25%

ICO

is the initial placement of new cryptocurrency units.

19%

Startups

young and promising companies that have recently started their activities.

18%

Pre-ICO

sale of company tokens before the official ICO is held.

CONTINUOUS DEVELOPMENT

Turnover for 2021:

\$ **35,000,000**

Insurance fund:

\$ **3,000,000**

Total investors:

7000+

2021 has shown how many people are interested in increasing their capital.

When we started, we had only a few investors who trusted us. However, showing excellent results, we attracted the attention of investors from more than 20 countries. Today, Aribuka has over **7000 active members** and this number is constantly growing.

We have huge plans for the future.

The priority areas are the issuance of their own bank cards for everyone, as well as the creation of a blockchain. We are constantly working on the development of the service and try to satisfy all the needs of our customers. At the moment, the site has been translated into **10 languages** and other popular languages of the world will be added soon. Also in the near future we will complete the preparation of our mobile application *App Store* and *Google Play*.

In February 2022, our company created **an insurance fund**, as we feel responsible for the capital of our clients. This will serve as a good guarantee of the safety of the funds of all investors. Initially, the insurance fund was **\$ 3,000,000**, but this amount is constantly growing.

Elementary

This tariff plan is suitable for novice investors who want to get to know our company. The investment period is only 1 month. You can return your deposit at the end of the investment period. Average daily profit is 0.3%.

4-level referral system aribuka

Invite friends and acquaintances by your referral link and you will receive a bonus from the profits of your partners.

By helping other people get the opportunity to increase passive income in **Aribuka**, you will not only increase the benefits of increasing the income of the company's clients, but also get an additional source of capital growth.

Demonstrate your leadership skills and build a powerful investor's team! The best part is that you can become a company's partner without even having your own deposit on our platform. That is why you can make money with Aribuka with zero investments from your side and no income limit.

Referral commission is charged to all participants from the profit of their partners from all 4 levels. The referral commission is charged daily at the moment your referral receives a profit.

aribuka.com

From March 2022, Aribuka will start developing its own blockchain. This is an important stage in the development of our company. *Creating our own blockchain system will open up huge opportunities for all participants.*

The training and recruitment of leading specialists in the industry is underway nowadays. We plan to create our own **token**, **NFT** and create a **game with the ability to earn and spend tokens.**

All investors will receive tokens as a gift at the pre-ICO stage. Negotiations are underway with exchanges **KuCoin**, **Huobi**, **Bitfinex** and **CEX.IO** on the future Aribuka token offering. There is a lot of work ahead with which we have to cope in order to provide the user with something really grandiose.

ARIBUKA PLASTIC CARDS

An Aribuka bank card is one of the priority goals of our company for each investor.

Nowadays, negotiations are underway with HSBC bank on the possibility of issuing plastic cards. The balance of the investor's personal account will be tied to the balance of his bank card. When paying by card, the amount equivalent to the purchase in fiat currency will be deducted from the balance of your personal account at the current rate of cryptocurrencies. This system will allow you not to think about where to exchange cryptocurrency for fiat money in order to spend the earned profit. Aribuka card can be used in any country of the world **without commissions for non-cash payments.**

Get your own

ARIBUKA PLASTIC CARD!
